Committee for the Evaluation of
Chemistry Study Programs
Council for Higher Education
Jerusalem

Response to Report on the Department of Chemistry at Bar-Ilan University

Dear Committee members,

Your report on the Department of Chemistry at Bar-Ilan University was carefully read by the department chair and by the Dean of Exact Sciences. They both found it accurate and containing useful recommendations. We thank you for your efforts and important insights.

We have a minor comment regarding your first recommendation on page 4:

- Faculty seminars to undergraduates to expose them to available tracks and research opportunities.

The second year students take such a course (2-hours/week) in the second semester. Faculty members describe the highlights of their research field and expose the students to available tracks and research opportunities.

Sincerely,

Prof. Miriam Faust
Vice Rector
In charge of Quality Evaluation

Cc:
Prof. Haim Taitelbaum, Rector
Prof. Chaim N. Sukenik, Dean, Faculty of Exact Sciences
Prof. Bilha Fischer, Chair, Department of Chemistry
