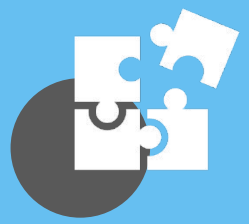
Challenge: Sustaining concentration and engagement

Key Principles
of online teaching

Break up the lesson, break down learning into chunks



Vary methodologies, content and activities

Generating engagement and interactivity

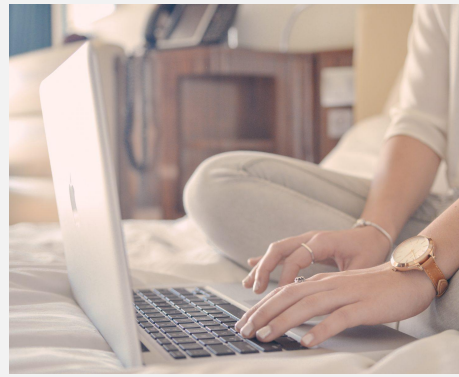
microphone
camera

chat

with/out
PPT

polls

breakout
rooms

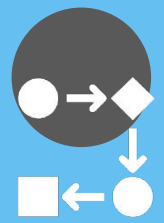


ENGAGE!

Challenge: Managing autonomous learning

Key Principles
of online teaching

Present the outline and objectives of your lesson and connect to previous and future lessons



Routine is important; create a consistent and clear course structure

Challenge: Avoiding overload

Key Principles
of online teaching

Signposting is used to orientate the audience inside your presentation or to show them where you are going (words, voice, visually).

Beware of learning and teaching overload

Focus

Challenge: Promoting effective communication within clear boundaries

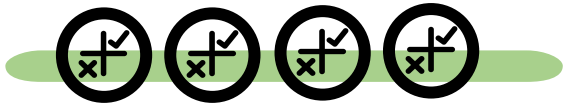
Key Principles
of online teaching

Community building

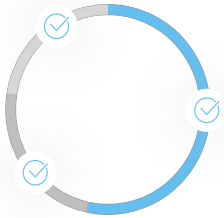
Informal communication, on an equal footing

Open and define channels of communication

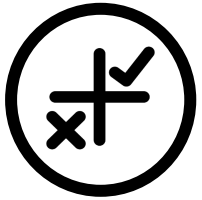
Challenge: Assessment



ongoing assessment



formative assessment



summative/ alternative assessment
